THE MASKED RIDER STORY

In a twisted quest for a perfect being, Dr. Mochizuki, a university scientist, transplants a grasshopper gene into the body of his trusty lab assistant, Asou Masaru. Masaru, an unknowing participant in the professor's experiment now possesses the strength of a super human being, half man/half insect—The Masked Rider...Confused and estranged after the experiment, he disappears into the woods.

The professor, disappointed in the results of his first experiment, attempts to fine tune his creation of "the perfect being". Only this time, the results are even more disastrous. In this second experiment, Dr. Mochizuki creates the "Neo-Existence," a new life form that is able to change physical shape as well as breakdown objects surrounding it into molecular particles. It is the embodiment of all evil and destructive forces.

This "Neo-Existence," devoid of humanity, is a swirling spiral of death and destruction. It first creates Doras, an ever-morphing demonic force to do its evil bidding and destroy everything human (and good) in the world. After Doras was created, the professor mysteriously disappeared. Now, in a final fit of jealous rage, the Neo-Existence attempts to destroy Hiroshi, the professor's son.

The story opens as Asou, wrapped in leaves, is woken up from a deep dream-like state by a grasshopper. *"Where am I? What happened to me?"* He asks. *"That voice. Who's calling me? I must protect him. Hiroshi. Hiroshi. Doras is coming..."*

No one answers, but Asou awakens, raises his arms high in the air and is suddenly transformed into a brave warrior—The Masked Rider.

THE CHARACTERS

Asou/The Masked Rider

While working as a lab assistant, Asou is forced to participate in an experiment. Against his will, he is transformed into The Masked Rider—a super human life form—half human-half insect—by the implementation of a grasshopper gene. Four years after his "creation," he is awakened from a deep sleep in a cave in a forest by a strange but familiar voice.

Z-cycle

A high performance motorcycle the mad Dr. Mochizuki created at the same time he created The Masked Rider. In tune with ZO's spirit, it's designed to bring out the maximum performance of The Masked Rider.

THE CHARACTERS

Dr. Mochizuki (Age 43)

The authority on genetic engineering and the father of Hiroshi. He is also the creator of the Masked Rider and The Neo-Existence. At the present time, his whereabouts is unknown.

Hiroshi Mochizuki (age 12)

The only son of Dr. Mochizuki. His mother died when he was born so he was raised by his father and grandfather. Two years ago his father, Professor Mochizuki, mysteriously disappeared.

Seikichi Mochizuki (Age 73)

Hiroshi's grandfather and the father of the mad scientist Dr. Mochizuki. He has been raising Hiroshi single handedly since his son disappeared two years ago. He is known around his neighborhood as the "Town's Inventor."

THE NEO EXISTENCE—YOUR OPPONENTS

The Neo-Existence

A powerful and evil life form created with the madness of Dr. Mochizuki's last experiment. It is not affected by human feelings and has no sense of remorse.

Doras

The first creation of the evil Neo-Existence. Doras appears in various forms throughout the game. It has the ability to regenerate parts of its body from materials around it. It is seemingly unstoppable.

Aracnia

A horrific giant spider woman who traps her victims by spitting out a thick web that envelopes them.

Draculon

A creepy bat creature who has the ability to morph into images of people around him.

GAME STRUCTURE

The game is divided into 10 battle scenes. The player, playing as The Masked Rider, Masaru Asou or Hiroshi Mochizuki must react and move swiftly following the instructions displayed on the screen.

By pressing the direction pad and the punch, kick and guard buttons according to the instructions, the enemy's Life Bar decreases. A battle is won when the enemy's life bar reaches 0.

The faster the button pressing timing, the greater the damage sustained to the enemy and consequently the faster the enemy falls. When the player wins, he can watch ZO in action until the end of the battle. Making the wrong moves or any delay in reaction will reduce the player's Life Bar. The slower the reaction, the greater the damage sustained by the player. During the game, different action selection messages displaying 2-3 selections for the next move will appear. Selecting the wrong action may result in the decrease of a player's Life Bar.

When this symbol appears on the screen the player must tap A,B,C buttons repeatedly to charge up the character's "Inner Strength"

The **PUSH** bar reflects how much strength the character has accumulated, the **PUSH** bar must be full by the time the ICON picture stops flashing in order to protect the character from damage. The game is over when the player's Life Bar reaches 0.
